

PASSPORT EXCHANGE

“Hosting a student began a life-long
friendship that opened the door to another
country, landscape, language, history, way
of thinking and way of life.”

– Robert H., former host

BEAVEN & associates
Private Tutors EST. 1976

Since 1979, Passport Exchange has introduced Spanish, French, and Italian students to the homes and communities of American families, and in doing so, encouraged students from Europe and the United States to open the door – for guest and host alike – to another country, its language, history, and way of life.

The best way for an American to begin to learn about a foreign country is to host a student from that country. The best way for a visitor to the United States to get to know America and its people is to be a guest of an American family.

The Program

- ◇ A student lives with a host family and takes part in a program at our headquarters located at Three Dundee Park in Andover during the month of July.
- ◇ Monday through Friday students meet for tutorials in English combined with excursions to cultural and recreational attractions in the Boston and New England area.
- ◇ Evenings and weekends are times reserved for the host family and friends.
- ◇ For full details of the program, go to: beavenandassociates.com and click on the tab: **Foreign Exchange Programs.**

Alternate Placements are Possible in Other New England Locations.

- ◇ Some students will be placed in host families located in other towns and New England states.
- ◇ These families typically have one of the parents staying at home or working from home. They often belong to clubs and have a wide social circle that includes other families with teenagers.
- ◇ An exchange student from Europe can be placed with such a family and will have plenty of opportunities to participate in the summer activities of the host family's children and meet new people through the host family.

Prospective Students in Europe

- ◇ Secondary level boys and girls from Spain, France, and Italy between the ages of thirteen to seventeen.
- ◇ Most have an intermediate level of spoken English.
- ◇ All students are screened abroad for individual interests and preferences and matched with a compatible American family.

Prospective Host Families

- ◇ If you are interested in hosting a European student, all you need is a warm, friendly home with an extra bed.
- ◇ Interaction between family members is an important part of the exchange.
- ◇ A comprehensive orientation is provided to the family prior to the student's arrival.
